

# SOLERO HEATING & LIGHTING

*It's been a nice day, the sun is slowly setting and it's starting to cool down. With the help of heating and lighting we can bring back the sun for a little while on the patio or in your backyard.*

Our patio heaters are perfect for use in hospitality but are also available for consumers. They create a comfortable atmosphere and are available in multiple colors, the design isn't ostentatious but looks stylish.

The great thing about infrared lights is that they warm people, instead of air, this means there's no lead to build up heat and effective heat is created immediately after turning it on.

An added advantage is that 92% of the electricity is converted to heat.

The heaters are easy to install, easy to direct and suitable both in- and outdoors, the machine is lightweight making it very easy to move.

We also thought about the environment, working with infrared means there's no exhaust gases; there's no use of oxygen after all. There's no (direct) CO2 emission and while in use there's no pollution or noise through air- and dust circulation.

The heaters are splash proof and made of weatherproof aluminum, the special isolation prevents overheating of the housing and the grate at the front prevents touching of the halogen lamp. There's no blinding through the use of filtered lamps. Each lamp has around 5000 hours of use.

HEATERS & LIGHTING

#### **SOLERO HELIOSA 11**

The new Solero Heliosa 11 is a waterproof heater (IPX5) with a 1500 WATT amberlight bulb. Amberlight has 80% less light output than standard heating elements, and creates a pleasant atmosphere. A 5 meter cable, and a parasol bracket are included with the Heliosa 11 heater. For heating areas 12-15 m<sup>2</sup> / 129.17-161,46 ft<sup>2</sup>.

#### **SOLERO HELIOSA 44**

The new Solero Heliosa 44 is a waterproof (IPX5) heater with a 2000 WATT amberlight bulb. Amberlight has 80% less light output than standard heating elements, and creates a pleasant atmosphere. A 5 meter cable is included. The parasol bracket can be ordered separately. For heating areas 15-20 m<sup>2</sup> / 161,46-215,28 ft<sup>2</sup>.

#### **SOLERO HELIOSA 66**

The new Solero Heliosa 66 is a waterproof (IPX5) heater with a 2000 WATT amberlight bulb. Amberlight has 80% less light output than standard heating elements, and creates a pleasant atmosphere. A 5 meter cable is included. The parasol bracket can be ordered separately. For heating areas 20-25 m<sup>2</sup> /

#### **SOLERO HELIOSA POLE MOUNTING BRACKET**

This mounting bracket is specially made to mount the Heliosa heaters on a round or square pole. The bracket can be used for a pole up to 100mm.

#### **SOLERO HELIOSA REMOTE CONTROL**

This wireless remote control has two programmable channels, and can operate up to 3500 WATT. With this remote control, you can control two 1500 WATT heaters simultaneously. (IP45)

#### SOLAMAGIC V4

The V4 is sunshade lighting with 4 spots, each with 50 Watts of power. Because of the clever design, with just one step you easily mount 4 spots on your sunshade. The V4 weighs 3 kg and is easy to mount because of that. The connecting cable can be ordered separately in 5 or 10 meters, and black or white. This lighting can be mounted on every mast with a diameter between 45-89 mm. Extra lamps are available as well.

#### SOLERO ACCENTO

The easiest way to shine some light in the darkness is through the use of the cordless Solero Accento. It comes standard with the purchase of a free hanging garden sunshade, but it can be ordered separately as well. The Accento fits around masts with a diameter between 34-50 mm and is rechargeable.

#### SOLERO LUX

The Solero Lux is a new stylish parasol light with LED. This LED light has a built-in battery and can be easily installed with a 3M magnetic strip. The Solero Lux contains 4 LED strips (with built-in battery), 4x USB charger, a 3M magnetic strip, and a 4-way USB charger to charge the 4 LED strips simultaneously.
